Ladies , gentleman,

There will probably come a time that you guys will actually do something for us law abiding citizens! We are easy, we're stupid and we continue to be fooled by you guys at every election, promising to do right by us! For once, stop victimized us, by continuously croning up with each other to trampled on our second amendment rights, and passing law that only hurts us and our family.

I fought for my country, did you?

Ax
